## Registration for pre-primary education 2021–2022 for children born in 2015

All children born in 2015 must attend pre-primary education in the 2021–2022 school year. Pre-primary education is provided for at least 700 hours per year (4 hours per day). Pre-primary education follows the school holidays of the school year.

Registration for pre-primary education takes place electronically between 1 and 28 February 2021 via the website of the City of Kotka.

The registration process for bilingual pre-primary education (in Finnish and English) is the same as for other pre-primary education. The start of bilingual pre-primary education will be confirmed later.

You can register on the City of Kotka website by navigating to “Kasvatus ja koulutus” (“Education and training”), “Varhaiskasvatus” (“Early childhood education”), “Asioi verkossa” (“Online services”):

In Kotka, pre-primary education is organised in 2021–2022 as activities under Early Childhood Education services at early childhood education locations and schools. If the child needs other early childhood education, we aim to provide this directly in connection with pre-primary education.

The curriculum for pre-primary education and the locations providing pre-primary education in 2020–2021 can be viewed on the Early Childhood Education website.

Please select the pre-primary education place that is located at the child’s local school.

If necessary, information on local schools can be obtained from the Early Childhood Education service guidance,  
tel. 05 234 7788, open Tue 13:00–15:00, Wed 9:00–12:00 and 13:00–15:00, and Thu 9:00–12:00.
